Table V.—DISTANCES BETWEEN POINTS ON LAKE MICHIGAN

Other tables to which initial point No. 1 is common:
II—Lake Ontario and St. Lawrence River.
III—Lake Erie, St. Clair, Detroit, and Niagara Rivers.
IV—Lake Huron and St. Marys River.
VI—Lake Superior.

* From sailing course point north of Old Mackinac Point.

♭ Distances from Menominee and Green Bay to Lake Michigan points except those marked (*) are via Sturgeon Bay Canal.

*Via Rock Island Passage.

EXPLANATION

Explanation generally applicable to all tables is published in table I.

Points in this table are arranged in geographical sequence proceeding southward along the west shore and returning northward along the east shore.

For determining distances to points in other lakes, distances from all places listed in this table are given to Old Mackinac Point, and this initial point also appears in each of the other tables respectively indicated by numeral designation. The through distance from a given point in this table to a given point in any other table is the sum of the respective distances to each given point from Old Mackinac Point, common to the two tables. Thus, a through distance from a Lake Michigan point to a point in Lake Superior (Table VI) would be derived as follows:

Old Mackinac Point to Racine	272
Old Mackinac Point to Ashland	439
Racine to Ashland	711
