

# Built For a Lifetime. Not Just a Job!

## Truckable floating equipment that pays for themselves. Again. Again. And, Again.

The Great Lakes Shipyard staff will work closely with you to deliver the perfect solution to meet your specific need. Whether it's a simple or a complex design, our experienced engineers, construction team and ABS certified welders will deliver it on time. At a competitive price.

## HandySize Workboat<sup>™</sup>**Z**

Available in single or twin screw, these tough workboats come standard or custom designed to fit your specific application. They can be delivered anywhere in the world.

Our state-of-the-art Great Lakes Shipyard facility is delivering a full line of HandySize workboats and barges to meet the needs of the marine industry. We have a long history of new construction, marine fabrication and vessel repair for commercial marine and government vessels. And, because we operate a fleet of our own vessels, we understand our customer's expectations. They want a quality vessel that will withstand the test of time, in a tough working environment – it's just what we would expect for ourselves.

### Marine Fabrication

We deliver high-quality workmanship, on-time performance and competitive pricing on:

- Floating Docks
- Tanks
- Ferries
- Pontoons
- Modules
- And, much more.

### Full Shipyard Services

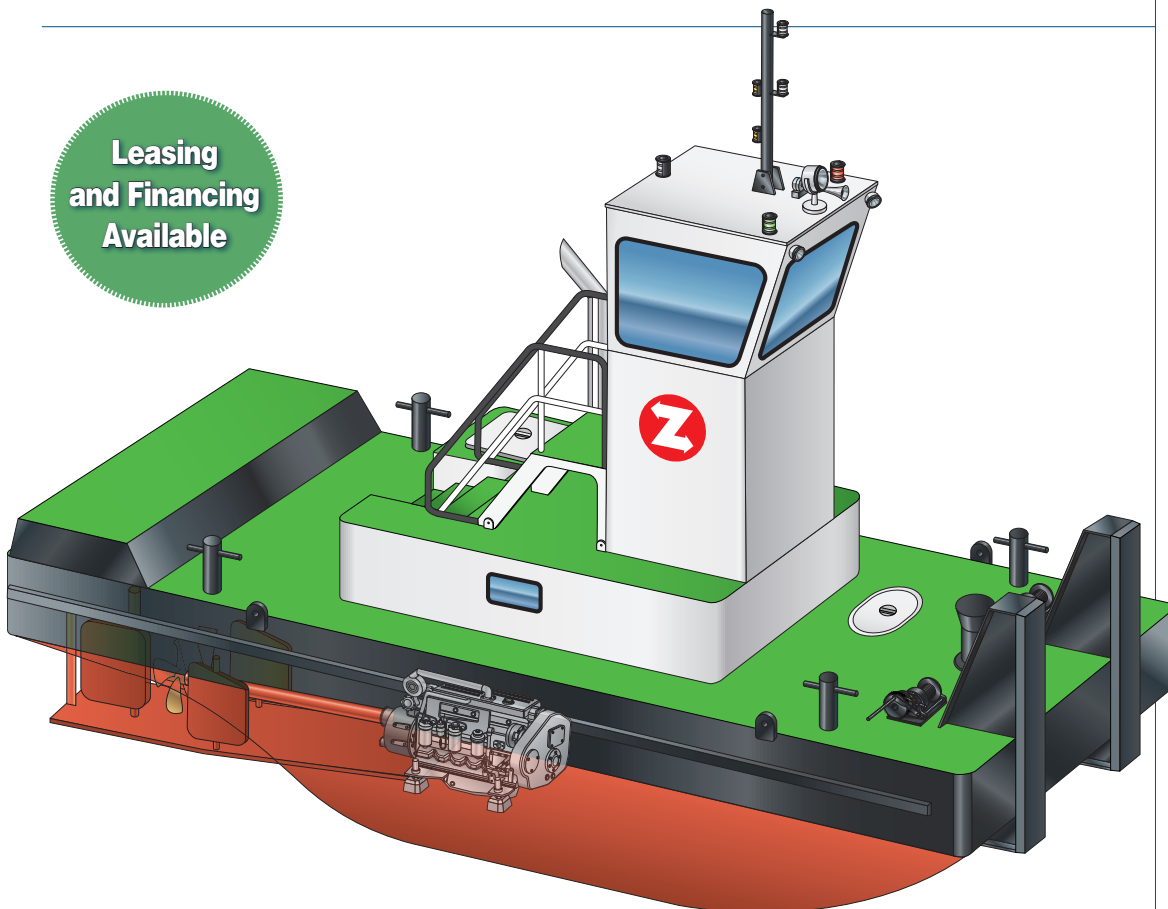

- Repair and maintenance service for tug boats, supply boats, ferries, barges, cruise boats, etc. Long-term contracts with Great Lakes Coast Guard, Army Corp of Engineers, The U.S. Navy and NOAA.
- Drydocking and bottom work for vessels up to 300 tons
- Steel fabrication and winter lay-up work
- Topside work for laker and saltwater vessels, both domestic and foreign, of all sizes at customer's dock or other deepwater berths

Great Lakes Shipyard is the  
builder of the HandySize Tug<sup>™</sup>.
