* Via False Detour and North Channels.
 † Via Missisquoi Strait and North Channel.
 ‡ Via Lake Nicole, St. Joseph, and North Channels.
 § Via Potegamistig Bay and North Channel.

EXPLANATION

Explanation generally applicable to all tables is published in table I.

Points in this table are arranged in geographical sequence proceeding from St. Marys River southward along the west shore, and returning northward up the east shore, around Georgian Bay, and westward through North Channel.

For determining distances to points located in other lakes, distances from all places listed in this table are given to the initial points Nos. 1 to 3, which also appear in the other tables respectively indicated by numeral designation. The through distance from a given point in this table to a given point in any other table is the sum of the respective distances to each given point from the initial point which is common to the two tables.
